A Custom file contains license information related to **A SINGLE** Board/Bureau/Committee/Program (hereafter referred to as "Agency"), for resident and non-resident licensees. It can be customized to include only certain license types, to target specific geographic locations or to provide additional related data, based upon available selection options. The data is then sorted according to the Requestor's preferences. At minimum, Custom files include the licensee's full business or individual name, full address, city code, county code, license type, original issue date, expiration date, date record was last updated, and Agency code. Additional selection options are listed below. Some [class codes](#) (a further distinction within a license type identifying what trade or profession is licensed) are also included for certain Agencies. **Please refer to [Information and Rates](#) for more information.**

A separate request must be submitted for each Agency. The cost for a Compact Disc (CD) or an email file is **\$245.00 per Agency**. The turn around time is four to six weeks from the day the Public Information Unit receives the request form, with full payment. Fees are non-refundable unless there is a defect in the product. **Replacement data is not applicable after five business days following the mailing of the output.** For refunds under \$10.00, the Requestor must submit a written request to the Public Information Unit, due to accounting requirements. Please allow 90 days for all refunds.
